Light-Based and Skin Rejuvenation Treatments

Laser 360 - Total Skin Rejuvenation

The ultimate nonsurgical treatment for skin rejuvenation. Tightens pores and improves skin texture and tone for renewed radiance. Three laser treatments are combined to achieve optimal results.

Pixel Perfect - Skin Resurfacing

Reverse the signs of aging, tighten pores, improve acne scars, and diminish fine lines.

Accent - Face and Body Contouring

Tone and tighten your face, and slim your body with radio frequency energy.

PhotoFacial/IPL - Photo Rejuvenation

Improves sun damage, skin discolorations (hyperpigmentation), rosacea (facial redness), and broken capillaries (facial veins).

Pain-Free Laser Hair Removal

State-of-the-art technology specially designed to remove unwanted hair faster, more comfortably and with fewer sessions. This procedure can be used to treat hair on the face and full body.

Spider Vein Removal

Laser energy is applied to spider veins causing them to coagulate and disappear. Several treatments may be required.

Lipomassage by Endermologie

Improves cellulite and lymphatic circulation to reveal smooth and healthy looking skin. This treatment is recommended in a series after liposuction.

Gentlewaves

LED light-emitting photo modulation delivers yellow light to reduce reddening of the skin and stimulate regrowth of collagen. Gentlewaves is safe and effective for all ages. It is also used to diminish reddening after peels and laser treatments.

VI Peel

The secret of the jetsetters. A blend of acids, vitamins, and natural minerals are combined for a firmer, clearer, radiant skin tone. Restores your skin to its earlier glow and youthfulness. You will see results in as quickly as five to seven days. This peel is excellent for all skin types and tones

Micro Peel

An exclusive treatment to give your skin radiance and beauty. Micro peel is a light chemical peel to rejuvenate and regenerate the skin. It is safe and effective for reducing the appearance of fine lines, enlarged pores and sun damage.

Microdermabrasion

This technique exfoliates leaving a revitalized and refreshed look. Diminishes sun damage and improves skin texture. A series of treatments are recommended.

Dermaplane

A unique medical technique to remove dead skin cells and unwanted fine hairs from the face.

Medical and Customized Facials

24-Karat Gold Coast Facial

Cleopatra's ancient beauty secret. The pure 24-karat gold leaf is amongst the highest grade of gold. The gold flakes are applied to the face and décolletage. This luxurious treatment includes a massage to drain lymph nodes, release toxins and stimulate blood cells. Your skin will be firmer and brighter with a luminous glow.

Dead Sea Salt Facial (Exfoliation)

The Dead Sea holds the highest level of salt content for a body of water. This synergetic exfoliant treatment contains natural oil-infused salt crystals that mineralizes and hydrates your skin.

Champagne & Girlfriends' Facial

An elite experience with girlfriends. This treatment includes champagne, truffles and more. A 60-minute hydrating facial with neck and décolletage massage. Enjoy a facial, makeup application, and be ready for a night on the town with friends.

Men's Executive Facial

A deep pore cleansing facial with seaweed and algae to release toxins from daily stress. This treatment includes refining deep pores with an enzyme peel, followed by a stimulating face and neck massage. Back exfoliation upon request.

Yafa Body Wrap

Specially formulated mud wrap from the Dead Sea that contains 26 minerals to promote nature's healing. Deep cleanses, detoxifies and rejuvenates healing of cells. These minerals are nature's best anti-inflammatory ingredients. This treatment is superb before a special event or to release toxins from daily stress and pollution.
